

Project - 91

Mockups

- The app I'm creating is named as THE REMINDER APP
- This app is for those people who sometimes ~~for~~ forget the tasks to be performed at a certain time
- Wireframe :

Note - This is the starting output of the app.

- Home screen : The 'REMINDER APP' title has been mentioned on the top of the screen. A light and pleasant background image has been given for the screen.
- Add screen : Only the text - 'set your reminders here!' has been written in the initial stage.

All measurements are taken using (RF VALUE) and Bottom tab navigator is used to switch among the screens.
